## INTRO

---

The effects of a global pandemic like Covid-19 are felt by everyone – both in public and private life. In order to prevent or slow down the spread, we must all take active steps to prevent the proliferation and spreading of aggressive viruses and bacteria. With a view to driving this forward and making measures as easy as possible to implement, we have compiled a number of helpful solutions for hygiene protection. Let's get active together!

**ACTIVE  
TOGETHER**

# VERSATILE ADAPTABLE SAFE

**BUILD TRUST AND CONFIDENCE WITH YOUR CUSTOMERS.**

Popular meeting places such as cafés, restaurants, hotels or supermarkets attract a large number of visitors. Due to the wide range of products on offer, it is particularly important to gain trust with the customers and build up their loyalty. Our systems help to integrate protective measures into your business premises - individually tailored to your CI. A combination of protection and design.

Shielded checkout areas ensure that the minimum distance is observed.

## CONTACTLESS PAYMENT AND DISTANCE.

Aluminium and acrylic glass are particularly easy to clean.

## Checkout Areas

Safe shopping experience including payment.

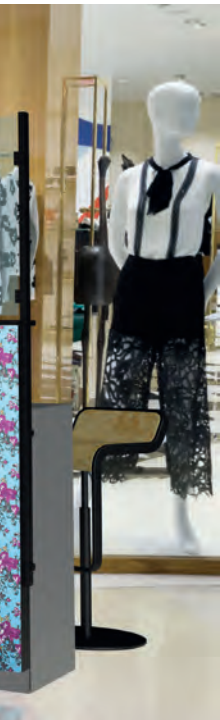

### **Making guidelines and rules visible.**

Clearly separated areas make it easier to maintain the prescribed minimum distance. At the supermarket, the car dealers or the hairdresser: these measures help protect employees and customers at the same time.

## Info Counters

Ideal for small pop-up stands

### Tailored hygiene protection.

Our wide range of products makes us flexible and allows us to supply the correct size and format for every counter - including curved ones.

Fabric graphics can be adapted to the changing assortment at any time.

# INTEGRATE PROTECTIVE MEASURES INTO YOUR OWN CI.

The panels can be designed according to your wishes.

Colours to match the design:  
coated aluminium extrusions.

## Restaurants

### **Creating a relaxed atmosphere.**

Especially in the field of catering and foodservice, a pleasant atmosphere of well-being is of utmost importance. To this end, our partition walls provide protection and design at the same time. The surfaces can be decorated with individual graphics to make them fit into the overall concept. If desired, the aluminium extrusions can be coated in any RAL colour.

**SEPARATE SPACES  
FOR MORE  
PRIVACY.**

## Restaurants

The partition walls can be equipped with opaque panels, glass or milk glass.

**MOBILE &  
TEMPORARY USE  
JUST AS REQUIRED.**

The fabric graphics can be changed and adapted at any time.

## Receptions

### **Protection and information combined.**

Our partition wall systems can be customized with different accessories such as brochure racks or monitor mounts. More functions not only to communicate important information but also targeted advertising messages. Our freestanding illuminated displays attract even more attention. With their low weight and fast and easy set-up, they are perfectly suited for mobile use - wherever they are needed.

The folding wall elements can be folded out as necessary.

Everything in view despite protected work areas.

## Hairdressers

### **Service and safety for the customer.**

Many services cannot be provided from a safe distance of 2m. To ensure that customers are still optimally protected, our folding walls can be used to create separate work areas. Just set up the folding wall and fold it open to suit your needs. Thanks to the castors, no effort is required. Quick, safe, adaptable - the perfect solution for everyday work!
